

Summer Fire Safety

For Businesses

GRILLING AND OUTDOOR COOKING

- Designate a cooking zone at least 10 feet away from buildings
- Clean grills regularly to prevent grease fires
- Keep a fire extinguisher nearby

FIREWORKS AND HOLIDAY EVENTS

- Only hire licensed and trained professionals for firework displays
- Follow local fire codes and obtain permits
- Have fire extinguishers on site

FIRE PROTECTION SYSTEM ITM

- Schedule mid-year inspections, testing, and maintenance for all systems
- Check for corrosion, leaks, or damage
- Review and update emergency protocols

MAINTAIN LANDSCAPING

- Keep vegetation trimmed away from systems such as hydrants and alarm panels
- Remove dry brush and debris near buildings
- Ensure access to fire lanes and exits is clear
